

"Where Design and Manufacturing Come Together."

Corporate Capabilities

Statement

www.americanarch.com

American Architectural Metal Manufacturers, Inc. (AAMMI) is a Service-Disabled Veteran-Owned small business and self performing flat roof accessories, and metal roof systems manufacturer located in Allentown, Pennsylvania. Our expert management team and 16 year manufacturing facility has the capability to cost effectively design and manufacturer entire metal roof systems, all flat roof system accessories, and wall panel systems for any size project. For a complete list of products available, please contact our office or visit our website. Our products are available through a wide range of distribution professionals. Design assistance & CAD drawings are available to expedite the completion of any project.
