

How to Save Your Customized PDF in Adobe Reader

Note: if you have Adobe Reader Version XI see the special instructions for that version at the end of this page.

To save the customized PDF after you have typed in your data:

At the top of the form go to

File

Save As

Reader Extended PDF

In the next box click the "Save Now" button.

On the next screen name the document and select the location and folder you wish to save it to.

Then click the "Save" button.

For Adobe Reader XI:

To save your customized PDF after you have typed in your data:

At the top of the form go to

File

Save As

On the next screen name the document and select the location and folder you wish to save it to.

Then click the "Save" button.
